Independent Verifier's Report on Performance Record

Avonbridge Capital

We have examined the accompanying Statement of Investment Performance and Notes to Statement of Investment Performance for the **V-Crypto-02 Trading Strategy** for the periods September 1, 2023 through March 31, 2026. Avonbridge Capital is responsible for the Statement of Investment Performance and Notes to Statement of Investment Performance. Our responsibility is to express an opinion on this performance presentation based on our examination.

Scope of Work

Our examination included examining evidence supporting the Statement of Investment Performance and Notes to Statement of Investment Performance for the **V-Crypto-02 Trading Strategy** and performing other procedures, as we considered necessary in the circumstances. Our examination included procedures to obtain assurance that performance results reflected in the Statement of Investment Performance were calculated using criteria as outlined in the Notes to Statement of Investment Performance. We believe our examination provides a reasonable basis for our opinion.

Opinion

In our opinion, the Statements referred to above present, in all material respects, the performance record of the **V-Crypto-02 Trading Strategy** for the periods September 1, 2023 through March 31, 2026, based on the criteria set forth in the Notes to Statement of Investment Performance. The Statement of Investment Performance and Notes to Statement of Investment Performance are an integral part of this opinion.

2024	13.02%	50.42%	25.18%	24.03%	9.64%	-13.52%	23.22%	28.36%	1.03%	8.21%	10.92%	3.96%	401.26%
2023 ^B	-	-	-	-	-	-	-	-	-7.42%	23.32%	4.54%	8.82%	30.78%

A - Performance from January 1, 2026 to March 31, 2026.

B - Performance from September 1, 2023 to December 31, 2023.

Avonbridge Capital
Notes to Statement of Investment Performance

1. Investment Management

Avonbridge Capital provides investor access, onboarding support, and ongoing relationship management for eligible investors seeking exposure to institutional alternative investment strategies. Through its relationship with Vanquish, Avonbridge provides access to professionally managed systematic trading strategies across foreign exchange, commodities, and digital asset markets, supported by institutional infrastructure, independent oversight, and third-party administration

2. Strategy Description

V-Crypto-02 is a high-frequency trading strategy purpose-built to capture structural inefficiencies in the digital asset markets, specifically BTCUSD and ETHUSD.

Grounded in the V-series methodology developed by Avonbridge, Crypto-02 leverages a proprietary trading system powered by advanced correlation analysis, machine learning ensemble filtering, and an NSGA-II genetic algorithm for capital allocation.

The strategy dynamically distributes capital across 8 independent subsystems, each engineered to detect and exploit predictable patterns in crypto price behavior. Allocation decisions are driven by proprietary scoring frameworks and risk-adjusted performance metrics such as Smart Sharpe and Sortino ratios.

Designed for agility, V-Crypto-02 holds trades for an average of 14 hours and processes approximately 1,100 positions per month. Its structure supports mid-frequency trading with high capital efficiency.

3. Calculation Methodology

The performance returns of the Trading Strategy represent actual trading results. The returns have been prepared using the following methodologies consistently applied. Other methods June produce different results:

- Performance is calculated net of transaction costs and gross of management fees. Spreads and commissions are reflected in actual trading results as executed.
- Performance is calculated using the time weighted rate of return methodology. Monthly returns are geometrically linked to produce annual and year to date returns.
- Performance includes realized and unrealized gains and losses.
- Trade date accounting is used for calculation and valuation purposes.
- Securities are valued using broker values.

4. Other Notes

- Past performance is not indicative of future performance.
- The Strategy uses complex instruments and comes with a high risk of losing money rapidly due to leverage,
- The Independent Verifier's Report on Performance Record and Statement of Investment Performance are an integral part of this presentation.
